Abstract:

JP 52108058 A

Film or sheet form seasoning-spices are mouldings contg. edible natural high molecular substance or deriv. thereof as the major matrix, seasoning and spice. The seasoning and spice is ≥ 1 substance from pepper, curry powder, garlic, tannin, sodium glutamate, sucrose, honey, salt, inosinic acid, vanilla essence, vinegar, 'miso', soup stock, sauce, soy sauce, red pepper, peppermint, cinnamon powder and cheese powder can be applied.

The film or sheet can be applied widely for coating 'tempura', 'gyoza', 'wanton', etc. It can serve both as packaging material for foods and as the seasoning-spice for foods. Among high molecular substances dicomponent moulding compsns. composed of alkali(ne earth) metal salt of proteinous material and starchy material are excellent from the view points of oil resistance, taste, appearance of obtd. foods, retention of taste and flavour of seasoning and spice, and affinity to foods to be coated.
